Narrative

MLU is an 11 bedded low risk midwifery led intrapartum birthing unit. Jeffcoate ward is currently closed. Whilst Jeffcoate is closed the agreed staffing levels are 5 midwives and 1 supernumerary shift leader. Agreed staffing levels fell below this on 21 occasions during the day. when activity allows, staff will be moved to help in other high risk areas. During times when staff were moved this was acceptable as activity was less on the MLU and safety was not compromised.

Staffing Concerns

there were 46 shifts not covered during this month due to sickness, this had an impact , although safety was maintained.

Number of shifts where staffing levels are not compliant with planned levels	46
Number of staffing related concerns escalated to Matron or higher	

Ward Manager's Assurance Statement

Staffing is monitored on a 4 hourly basis by the 104 bleep holder who has an overall view of the whole of the maternity service. Staff are moved between areas depending on activity, in order to provide a safe maternity service. There is an escalation policy in place when there are concerns around staffing and activity.
