	Total	180.77

Current WTE	Registered	133.74
	Unregistered	32.73
	Total	166.47

Number of shifts lost to Sickness Absence	Registered	105
	Unregistered	89
	Total	194

Day Shift

Narrative

The Maternity bed occupancy and staffing levels are monitored closely throughout the day and night. Staff rosters are published 6 weeks in advance giving the managers the time to flex staff or use bank if required. Staffing has been below expected levels in April, this has been due to vacancy and Maternity leave. The activity and staffing are being monitored 4 hourly by the Maternity bleep holder and staff moved to cover the areas where required. All staff in the service have supported the clinical areas including education teams, Infant feeding and management. The recruitment has been successful with new midwives going through pre-employment checks and are due to commence next month.

Night Shift

Narrative

Staffing again has been below expected for the month of April. The occupancy has also been reduced. Bank shifts and incentive have been in place during the month meaning better cover for these shifts. The bleep holder during the night has ensured that all areas are safe and escalation policy has been used where necessary.

Staffing Concerns

Number of shifts where staffing levels are not compliant with planned levels	46
Number of staffing related concerns escalated to Matron or higher	0

Ward Manager's Assurance Statement

Off duty is created in time to meet the demands of the service as it fluctuates. A senior midwife is allocated to monitor each area and occupancy during the 24 hours and re-deploy staff as needed.
