Day Shift

Narrative

Jeffcoate is a 8 bedded low dependency postnatal ward. Women stay on this ward if they are otherwise well and low risk but require some extra assistance. Women who have babies on NICU also stay on this ward. It is normally staffed with 1 midwife but when there are more than 10 women extra help is sought, usually from the MLU. If the activity is low on the MLU, staff are diverted to Jeffcoate ward to assist with the care and discharge of women and their babies

Ward Manager's Assurance Statement

Acuity is assessed by the maternity 104 bleep holder 4 hourly and staff redeployed from other areas if help needed to maintain the flow of discharging patients and patient care. From the graphs above it appears there are 34 occasions when staffing was not at agreed levels however this reflects the time when Jeffcoate was closed due to high acuity in other areas of maternity and no eligible patients suitable to be sent there.
